

Foldaside 30

Sliding & Folding Door Systems

Product Overview

The Foldaside 30 is a reliable hardware system purpose designed for lightweight internal folding doors up to 30kg per leaf. The end door within the set is secured using a pivot bearing whilst the other doors are aligned by means of unobtrusive hinges and hangers that bring the panels together.

Features

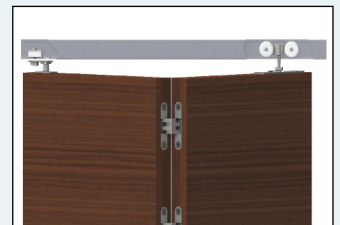

- For timber, timber framed or composite doors
- Neatly stacking to either one or both sides
- No recessed floor channel necessary with 2 leaf configurations
- A maximum of four doors can be hinged together
- Suitable for odd or even suites of doors
- Stable and smooth operation

Technical Specifications

- Maximum door weight: 30kg for even leaf suites
22kg for odd leaf suites
- Maximum door height: 2500mm
- Door Thickness: 20 – 40mm
- Track Dimensions: 27mm (w) x 24.5mm (h)
