

Silencio Double Glazed Moveable Wall

Glass Door Systems

Product Overview

The ultimate in acoustic performance coupled with total ease of operation. Supplied with fully framed and interlocking double glazed panels with an innovative blend of painted aluminium frame and glass, it is ideal for any commercial application, where noise reduction is a priority.

Features

- Top hung elements move easily and quietly on twin point suspensions running within an aluminium track
- No floor tracks required
- Full height inset pass doors can be easily accommodated
- Various options available for parking elements when the glazed wall is fully opened
- Double glazed panels with painted frit borders to any BS or RAL colour available
- Manifestations can be applied to the glass, to almost any chosen graphic design
- Manual or semi-automatic operation of seals by quick release handle or electronic control is possible
- Electronic tilt & lift or manual tilt only venetian blinds can be housed within the double glazing to provide privacy, if required

Technical Specifications

- Maximum door weight: 55kgs per M₂
- Maximum door height: 2900mm
- Door Thickness: 100mm
- Maximum door width: 1200mm
- Acoustic Rating: 45dB
