Soffit Fixing

Step 1 Fixing track

Face Fixed: track comes pre-drilled, mark the position of the levelled track on the wall and fix it with screws

Soffit Fixed: track needs to be pre-drilled, mark the ceiling and fix the track with screws

Face Fix

Soffit Fix

Step 2 Door hardware overview

Soft closer actuator (Soft closer is optional) *(Syncro Kit option is also available)*

8mm door

10mm door

Step 3 Prepare hangers and fix with 10mm door

a. Prepare all required components

b. Insert the rubber spacers on each side between the door and the hanger

DO NOT USE GLUE

c. Tighten the screws with 12Nm force

d. Insert the grub screw

NOTE: If you opted for a soft closer or syncro kit also refer to the appropriate instructions

Step 4 Prepare hangers and fix with 8mm door

a. Prepare all required components

b. Insert the rubber spacers on each side between the door and the hanger

DO NOT USE GLUE

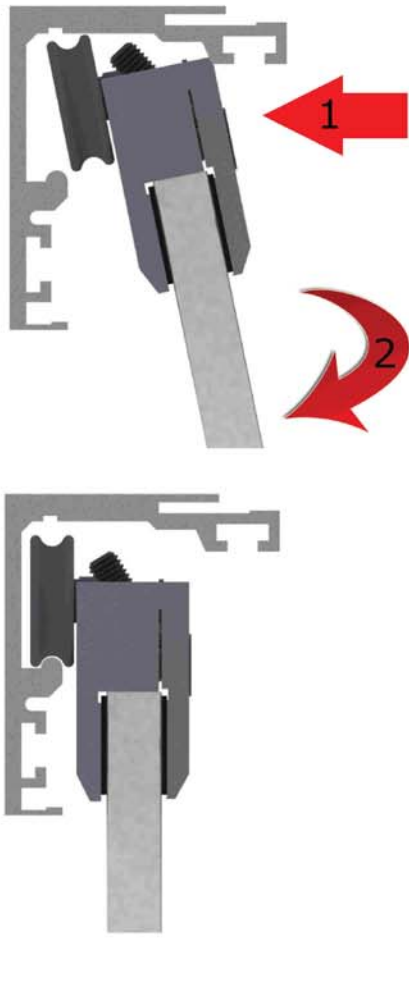

c. Tighten the screws with 12Nm force

d. Insert the grub screw

NOTE: If you opted for a soft closer or syncro kit also refer to the appropriate instructions

Step 5 Insert door and hangers into track

Adjust the height of the door by holding the **RED** nut with a spanner and rotate the **BLUE** grub screw with an allen key

To prevent the hanger from rattling in the track tighten the grub screw and leave a 1mm gap or smaller. Try not to obstruct the movement of the hangers.

Step 6 Install the bottom guide

Ensure the door is level, mark the position of the guide and secure it with screws

Step 7 Installing stopper and fitting end caps

Insert stopper into track and secure it with screws

NOTE: If you opted for a soft closer or syncro kit also refer to the appropriate instructions

Put the track front cover and secure with **screws** supplied

Put end caps into position and secure with screws
