Crystalline Folding CF60 Glass Door Systems

Product Overview

Crystalline Folding CF 60 is a stylish system combining function with performance, giving an uninterrupted view. It is ideal for maximising the flow of light between spaces. This frameless glass folding door system is equipped with unobtrusive and durable components which gives the system both smooth running operation and elegant design with clean lines.

The option to have access doors separate to or as part of the folding suite gives flexibility of layout for convenient use and the use of door bolts to hold the leaves flush when closed eliminates the need for a floor channel giving a clear boundary free thresholdmaking this system suited for centre folding glass doors in a variety of residential and commercial applications
